

Bastille-class

Medium-capacity Prisonship

The Bastille-class is a Medium Capacity Prisoner Transport Ship, usually operated by planetary governments and interplanetary Security Forces. Due to the level of security the ship is constructed to facilitate the more valuable cargo and thus unsuitable for slave transports and mass prisoner transfers.

The ships can usually be seen serving the routes between hive-worlds and penitentiary-worlds. They are also a common sight trailing the navy when a punishment mission or maybe even a minor invasion is heading out.
